

# TOP 10 REASONS paper SCANNING projects can go wrong!

**#10** Your scanner jams everytime you leave the paperclips on

**#9** You reached your health insurance deductible solely from paper cuts

**#8** Last time you scanned a document it ended up being faxed

**#7** Your IT department told you to update your drivers, so you ordered an Uber

**#6** Your last scan was auto-saved as unknown-14@xbw8!9acd\$f2zr69m.txt

**#5** You wear sunglasses because the light from the scanner is so bright

**#4** After loading your documents into the tray, you click PRINT

**#3** You use your scanner's USB port to charge your phone

**#2** Your scanner has a "SHARE TO FACEBOOK" button

**#1** The temp you just hired thought  
Canon was a game on iTunes
